

**FACULTY OF SCIENCE
Meeting of Faculty
Tuesday, February 8, 2005
Leacock Council Room - L232**

ATTENDANCE: As recorded in the Faculty Appendix Book.

DOCUMENTS: S-04-19 to S-04-27 AC-04-118

Dean Shaver called the meeting to order at 3:05 p.m.

(1) ADOPTION OF AGENDA

601.1 Dean Shaver said that he would be making an important announcement after the adoption of the Agenda.

Prof. GowriSankaran **moved**, seconded by Prof. Mucci, that the amended Agenda be adopted.

The motion carried.

601.2 Dean Shaver announced that Prof. Martin Grant, Chair of the Department of Physics, would be the new Dean of Science, starting June 1, 2005. He highlighted Prof. Grant's research and his administrative accomplishments. Dean Shaver said he would like to express his pleasure that Prof. Grant would be the new Dean of Science. He thanked Prof. Grant for agreeing to serve.

(2) CANDIDATES FOR DEGREES

a) Bachelor of Science S-04-20

Associate Dean Leighton **moved**, seconded by Prof. GowriSankaran, that the above candidates be recommended to the Senate Steering Committee for the Bachelor of Science degree.

The motion carried.

b) Diploma in Environment S-04-21

Prof. Mucci **moved**, seconded by Associate Dean Leighton, that the above candidates be recommended to the Senate Steering Committee for the Diploma in Environment.

The motion carried.

c) Diploma in Meteorology S-04-22

There were no students receiving this Diploma.

Prof. GowriSankaran further **moved**, seconded by Associate Dean Leighton, that the Dean be given discretionary power to make such changes in the degree list as would be necessary to prevent injustice.

The motion carried.

602.1

Prof. GowriSankaran **moved**, seconded by Prof. Ewing, that the Minutes be approved.

The motion carried.

(4) BUSINESS ARISING FROM THE MINUTES

There was no business arising from the Minutes.

(5) REPORTS OF COMMITTEES

a) Scholarship Committee

- Sherman Family Scholarships **S-04-23**
- Science Alumni Prizes **S-04-24**

- 605.1** Associate Dean Leighton said that the Sherman Family Scholarships were the first awards for students in the B.A. & Sc. degree.
- 605.2** Associate Dean Leighton said that the purpose of the Science Alumni Prizes was to give recognition each year to the few students who achieve very high CGPAs at graduation, but who would not otherwise be awarded a major monetary prize.
- 605.3** Associate Dean Leighton said that the terms of the Science Alumni Prizes should be modified so that the second sentence reads "Recipients of this prize may not hold any other **major** Faculty of Science or 144.000lnogn9e40.02 h()Tjffgs in the a maj.d41998 Tb2arships

Major in Environment; Ecological Determinants of Health - Cellular
AC-04-107
Major in Environment; Water Environments and Ecosystems - Biological
AC-04-108
Major in Environment; Water Environments and Ecosystems - Physical
AC-04-109

605.6 A member pointed out that GEOG 303 (Health Geography), which deals with ecological determinants of health, was not prominent in the Ecological Determinants of Health - Population Program, and was not present in the Ecological Determinants of Health - Cellular Program.

605.7 Associate Dean Mendelson suggested that the programs be approved, but that the member's concern be transmitted to the MSE.

Prof. Levine **moved**, seconded by Prof. Baker, that the programs be adopted.

The motion carried.

Honours in Environment AC-04-110

Prof. Baker **moved**, seconded by Prof. Levine, that the program be adopted.

The motion carried.

- **B.A. & Sc. New Programs:**

Faculty in Environment AC-04-115
Honours in Environment AC-04-116

Prof. Green **moved**, seconded by Prof. Gyakum, that the programs be adopted.

The motion carried.

3) **PSYCHOLOGY/NURSING/SOCIAL**

Prof. Donderi **moved**, seconded by Prof. Ewing, that the course be adopted.

The motion carried.

- 3) **McGill SCHOOL OF ENVIRONMENT**
- | | | |

3 credits | AC-04-95 |
| ENVR 491 | Independ. Proj - Environment
1 credit | AC-04-97(Rev) |
| ENVR 495 | Honours Research
6 credits | AC-04-96(Rev) |

Prof. Green **moved**, seconded by Prof. Baker, that the courses be adopted.

The motion carried.

SECTION D: MAJOR COURSE CHANGES - None

SECTION E: MINOR COURSE CHANGES (For Information Only)

- | | |
|-----------------------------------|--------------------------|
| 1) Report on Minor Course Changes | AC-04-79(Revised) |
| 2) Report on Minor Course Changes | AC-04-93 |

SECTION F: MINOR PROGRAM CHANGES (For Information Only)

Report on Minor Program Changes	AC-04-P4
---------------------------------	-----------------

SECTION G: OTHER (For Information Only)

1) **McGILL SCHOOL OF ENVIRONMENT:**

- **B.Sc.(AgEnvSC) Program Changes**

Major in Environment; Biodiversity and Conservation
Major in Environment; Environmetrics
Major in Environment; Food Production and Environment
Major in Environment; Land Surface Processes and Environmental Change
Major in Environment; Renewable Resource Management

- **B.Sc.(AgEnvSC) New Programs**

Major in Environment; Ecological Determinants of Health - Population
Major in Environment; Ecological Determinants of Health - Cellular
Major in Environment; Water Environments and Ecosystems - Biological
Major in Environment; Water Environments and Ecosystems -Physical

- B.Sc. (AgEnvSC) Honours in Environment was **withdrawn**.

- **B.Sc.(AgEnvSC) Program Retirements**

Major in Environment; Ecological Determinants of Health - Population
Stream
Major in Environment; Ecological Determinants of Health - Cellular
Stream
Major in Environment; Water Environments and Ecosystems - Biological
Stream
Major in Environment; Water Environments and Ecosystems - Physical
Stream

- **B.A. New Program**

Honours in Environment

- **B.A. Program Changes**

Faculty in Environment; Ecological Determinants of Health in Society
Faculty in Environment; Economics and the Earth's Environment

Faculty in Environment; Environment and Development

2) **PSYCHOLOGY**

B.A. Minor Concentration in Behavioural Science

3) **BIOLOGY**

- Minor Concentration in Science for Arts Students

c) **Nominating Committee (for information)**

S-04-26

605.9

Associate Dean Mendelson said that, as approved by Faculty, the Nominating Committee had the authority to make small changes to committee memberships, so Document S-04-26 was being presented for information. Prof. Gail Chmura would be the new representative of the Department of Geography on the Academic Committee.

d) **OgT**

Principal Munroe-Blum provided updates on a number of matters including the planning process. She indicated that a draft of the University Academic Plan would be brought to an upcoming meeting of Senate.

2. Update on Health and Safety Review.

Vice-Principal Yalovsky (Administration and Finance) gave an update on the scope of the Health and Safety review, which was initially presented to Senate in 2003. Here are some highlights:

- A Comprehensive review of the health and safety organization structure.

A report was presented to Senate in February 2004 which led to the creation of JAHSC, the Joint Advisory Health and Safety Committee, that consolidates the work previously carried by two committees (Radiation, Biohazards).

- An assessment of both McGill campuses classified by level of potential risk with regards to Health and Safety. The initial analysis was conducted by a work group consisting of in-house academic and administrative and support personnel chaired by Dr. Ian Butler.

The scope included examining all health and safety risk factors including fire, safety, security, and the general work environment.

Dr. Yalovsky advised Senate that a draft report had been submitted by the Chair of the work group and was being reviewed and finalized by the other members of the work group. Dr. Yalovsky indicated his intention to bring the report to the February meeting of Senate. In response to a question prompted by the report, Dr. Masi indicated that members of the university community are welcome to communicate their concerns and input to the JAHSC through its web site.

3. Question on the annual MacLean's university rankings.

In response to a question regarding the annual MacLean's University rankings, Deputy Provost Masi advised Senate that for the past two years, his office developed extensive internal documentation to support McGill. Professor Masi also noted that, in general, large, urban, research intensive universities rank lower on the class size indicators and higher on research intensity indicators. An unsubstantiated inference underlying one interpretation of these indicators is that first and second-year students do not learn as well in large classes as they do in smaller classes. This is an interesting pedagogical question and one which the SCTL subcommittee of APCC is con4 TTj0.02 0 0ca77.02 0tm 357C /P

Professor Vinet presented the Report and Response of the Ad Hoc Committee on Professor/Librarian Emeritus. A question was asked about the parking privileges for retired professors with respect to disabled parking, and the distinction between full library access and loan of books.

Professor Yalovsky replied that special parking privileges available prior to retirement would likely continue after retirement. Professor Vinet also noted that the "Regulations" provide that the scope of the privileges will be determined from time to time.

6. There were fairly routine reports from the APPC and the Nominating Committee.

7. Professor Miller presented the Seventeenth Annual Report of the Ombudsperson for Students. Professor Robaire noted that in the past, the last three individuals to hold the position of McGill Ombudsperson had recommended that a full-time position be established and asked why these suggestions had not been acted upon. Professor Vinet replied that the creation of the position of Harassment and Discrimination Awareness and Prevention Officer will provide more resources in connected areas.

In reply to a question from Professor Hodder regarding the number of cases that went to appeals, Professor Miller indicated that he had not explored this matter in his current report but would include it next year. He added that approximately 70% of the cases reviewed had in fact been resolved by the Ombudsperson.
