QUESTIONS AND ANSWERS

1. When will the Québec Perspective Scholarship Program come into effect?

2. What are the eligibility criteria for the scholarship program?

*f*

*f*

## 17. Can other scholarship programs be combined with the Québec Perspective Scholarship program?

The Québec Perspective Scholarship cannot be combined with any other scholarship program with similar objectives.

The principles governing the rules as to which scholarship programs can and cannot be combined are as follows:

- Scholarship programs with the same goals cannot be combined; in this case, the option that provides more funds to the target group is selected.

- Scholarship programs that do not have the same goals can be combined.

As a result, some scholarship programs will be integrated into the Québec Perspective Scholarship program, because they cannot be combined and are more advantageous, while others will be maintained and can be combined, to the greater benefit of the target group.
