2.3 Funding Information on the Web

This publication is accessible on the Web at <http://www.mcgill.ca/fgsr/fellowships/>. The OFA site also contains specific information on competitions and links to the sites of various funding agencies, and forms for several McGill fellowships and awards may be downloaded.

McGill University subscribes to the SPIN database for sources of research funding. The database is accessible free of charge to the end user from any computer on the McGill domain (or in any other participating university/institution). The database now carries a number of graduate and postdoctoral "fellowships, scholarships, awards, prizes, etc.". Access to the SPIN database, and search tips can be found at <http://www.mcgill.ca/fgsr/fellowships/spin/>

Information for international students and fellows wishing to study in Canada is available on the Canadian Bureau for International Education (CBIE) Web site at <http://www.cbie.ca> under "Study in Canada".

2.4 Information for International Students and Fellows

Funding opportunities for international students are not as plentiful as they are for Canadians since many forms of assistance provided by the federal and provincial governments are offered only to Canadian citizens or Permanent Residents of Canada. Opportunities for supplementing fellowship income by employment are also scarcer since international students and their dependents are not normally permitted by Canadian immigration authorities to work outside the university. Immigration officials also require all international students entering Canada to provide proof that they
