McGill University Health Center (MUHC)  
Montreal General Hospital (MGH) - NSA (Niveau de soins alternatifs) Unit on 15 East/West & 14 West

8. Identify key elements of a safe discharge plan.
9. Conduct medication reconciliation.
10. Identify ethical issues frequently encountered in transitional care.

Direct supervision by Clinician-Teacher on NSA unit

Feedback from Multi-disciplinary Team

Teaching & Mentoring Sessions animated by the NSA/TC Elective Course Director twice per week. (One-on-one sessions of approximately 1-hour duration, conducted via Face-Time or Zoom at present).

Ten-minute PPT presentation focusing on student's choice of several themes encountered during the first 2 weeks of this rotation, demonstrating critical appraisal skills
